## About Us

Urth Caffe was founded in 1989 by Jilla and Shallom Berkman as a small mail order company selling non-toxic and natural products for the home. In 1989, they met an organic coffee farmer named Jorge, who represented a farm in Peru producing organic, heirloom coffee which was very special – coffee, in general is the heaviest chemically treated food commodity in the world. Heirloom coffee trees are very rare and have never been genetically modified. After spending several years learning how to roast and brew great coffee – they launched the nation's frst exclusively organic, heirloom coffee company. The name chosen was "Urth Caffe", "Urth" is an old Welsh root spelling of Earth and "Caffe" is Italian for coffee. To us, "Urth Caffe" means ancient, earthly, natural coffee beans, or organic, heirloom coffee.
