**From: Tom Jones** 

"This place is very clean and lovely people trying to serve you with the best food fro thier menu. Their prices are reasonable."

# **OUR STORY**

Urth Caffe was founded in 1989 by Jilla and Shallom Berkman as a small mail order company selling non-toxic and natural products for the home. In 1989, they met an organic coffee farmer named Jorge, who represented a farm in Peru producing organic, heirloom coffee which was very special – coffee, in general is the heaviest chemically treated food commodity in the world.

### **WHY BUY ORGANIC?**

Coffee is the heaviest chemically treated food commodity in the world, and the coffee industry is wrought with environmental destruction, deforestation, and social oppression. In support of passionate sustainable organic coffee farmers

## **Green & White Teas**

Green tea is steamed or wok fried after harvest to halt oxidation. It is crisp and refreshing with a delicate vegetal flavor, low in caffeine compared to other teas, and high in cancer preventing antioxidants. Green tea is often compared to a super food containing B-complex, vitamin C, poly phenols and more. White tea is the least pro cessed type of tea. It is air-dried to preserve all its nutrients and antioxidants. Urth's green and white teas are air shipped fresh from Japan and China all year long. To brew bring water to 170 degrees, or as a Chinese tea apostle called it "Fish eyes" (for small bubbles on the bottom of the pot) and steep for 1 minute only.
